PROFESSIONAL SUMMARY

Backend-focused Web Developer with strong fundamentals in HTML, CSS, and JavaScript (ES6+), and hands-on experience building responsive web applications. Currently working as a Backend Developer Intern at SMIT, gaining practical experience in RESTful APIs, authentication, and scalable backend systems using Node.js, Express.js, and MongoDB. Passionate about building efficient server-side solutions.

WORK EXPERIENCE

- Backend Developer Intern – SMIT (Present)
- Designed and developed a Bootcamp Tracker LMS that is actively used in a real-world learning environment
- Built scalable RESTful APIs and implemented authentication & role-based authorization (Admin, Teacher, Student)
- Developed core modules including attendance system (check-in/check-out), assignments, and daily standups/reporting
- Implemented complete bootcamp lifecycle management (creation, management, and tracking)
- Managed database design and integration using MongoDB for efficient and structured data handling
- Collaborated with frontend developers to integrate APIs into production-ready applications
- Followed best practices for scalable, secure, and maintainable backend architecture

PROJECTS

Bootcamp Tracker LMS [🔗 https://boot-camp-tracker.vercel.app](https://boot-camp-tracker.vercel.app)

- Built backend with role-based auth (Admin, Teacher, Student)
- Attendance system (check-in/check-out), assignments & standups
- Bootcamp creation & full management system
- Scalable API design using Node.js & MongoDB

Expense Tracker [🔗 https://expense-tracker-frontend-two-omega.vercel.app](https://expense-tracker-frontend-two-omega.vercel.app)

- Built a backend-driven application to manage daily expenses and income records.
- Implemented features for adding, updating, deleting, and tracking transactions.
- Designed structured APIs for handling user-specific financial data.
- Enabled category-based expense tracking and basic financial insights.
- Focused on clean architecture and efficient data handling.
- Tech Stack: Node.js, Express.js, MongoDB

Social Vibes (Social Media App) [🔗 https://thesocialvibes.netlify.app](https://thesocialvibes.netlify.app)

- Developed a social media platform where users can create, like, comment, and share posts.
- Implemented media uploads (images/videos) with real-time database integration.
- Backend powered by Supabase for authentication and data storage.

SKILLS

- Frontend: HTML5, CSS3, JavaScript (ES6+), Bootstrap, React.js, Next.js
- Backend: Node.js, Express.js
- Database: MongoDB, Supabase
- Tools: Git, GitHub, VS Code, Netlify, Vercel, Cloudinary, Postman

EDUCATION

- Web & Mobile App Development – Saylani Mass IT Training (2024)
- Intermediate in Computer Science – Govt. Superior College (2023)
- Matric – Pacific Grammar School (2021)
